## Vessel Data Sheet

### MULTI-CARTRIDGE BAND-CLAMP LIQUID VESSELS GTCHB Series

#### GTCHB Series Multi-round Cartridge Vessels

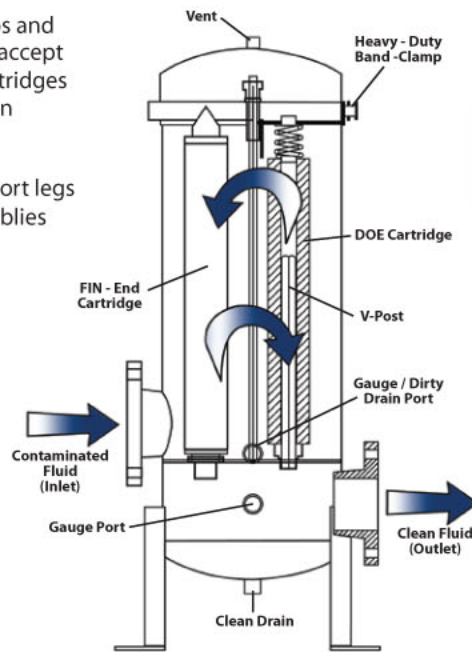

are designed for industrial and commercial applications. Vessels are constructed of 304 or 316 stainless steel and accept DOE,-222/FLAT, and -222/FIN end cartridges in 10", 20", 30" & 40" nominal lengths.

#### Features:

- Single o-ring design (Buna-N standard)
- Easy-access self-centering heavy-duty band-clamp closure
- 316 stainless steel universal seal cups and compression plates allow vessels to accept DOE, -222/FLAT, or -222/FIN-end cartridges
- 304 & 316 stainless steel construction
- Poly-coat finish (exterior only)
- 150 PSI pressure rating
- Heavy-duty welded mounting/support legs
- 316 stainless steel cap/spring assemblies and v-posts

#### Options:

- Alternate seal materials
- Sanitary porting

#### Ordering Information
